MAIL BID LIST #8

CLOSING AUG 9 1994

Foreign token collectors should find this auction of especial interest. Besides the group of European Encased Postage lots offerings of Canada, Mexico, the Caribbean (including a collection of St. Lucia Coaling tallies) and an outstanding series of 19th Century Irish Unofficial Farthings. Several unlisted French Colonial pieces are offered as well as a series of Netherlands tokens. Transport Token collectors can find an unlisted Portuguese Bridge token and a 1909 Canada bridge construction commemorative. A scarce Nome, Alaska, trade check is listed as are Fair Items, Paper Checks and Mining Stocks.

Descriptions are of necessity brief and oriented to numismatists. Sizes are usually in millimeters, although paper items are often in inches. Metal pieces are considered to be round unless otherwise indicated. Metals are shown as Al, Br, Cop, Nkl, Ir, or Zn or Pl(astic). Parentheses are often used and mean that the information found enclosed is not usually found on the piece. Catalog numbers are frequently used and are found in parentheses (e.g. L#101.3) and refer to the most standard work for the topic at hand. Since listing each reference would be too awkward, please feel free to write if you need to know. Dollar values in parentheses, e.g. (\$25) mean an estimated market value. An "MB" enclosed with the dollar value means "Minimum Bid" or reserve placed on a lot. Comments on my listings are always welcome.

## Irish Unofficial Farthings

I am fortunate to present a decent collection of this series, made about the time of the U.S. Hard Times Tokens. The best text for the group is "The Later XIX Century Farthing Tokens of Ireland" in THE JOURNAL OF THE ROYAL SOCIETY OF ANTIQUARIES OF IRELAND, June 1920. A few years ago they were still available in Dublin.

## MAIL BID LIST #8

### PRICES REALIZED

Dear Friends:

This issue of the Prices Realized is a little less sophisticated than the previous ones, mainly because of the complications of learning the computer. As I get into its operation hopefully I will get back to my old standard. In this list you will find the same number listed several times. This means that duplicate items were sold. The computer allows this to happen more easily than without.

#### STOCKS, BONDS, CHECKS & PAPER ITEMS

Stocks, Bonds, Checks and Receipts are a new field for me as well as most of you who are reading this far. Some of the qualities of these paper items that seem to affect collector interest, and therefore prices, include condition, attached or printed revenue stamps, "vignettes"(the little engraved scenes or portraits), age, topic (railroads and mines are popular), severity of cancellation, and famous signatures, among others. A good reference on stocks and bonds, anyway, is THE COLLECTOR'S GUIDE TO OLD U.S. STOCKS AND BONDS, by Andrew C. Hall, Sr., Vantage Press, 1984. According to people like Doug McDonald of Silver Springs, Nevada, there is no reference as yet available on checks. But I have little doubt that the situation will be rectified in time.

FIRST CLASS

Most North American collectors have heard, or heard about, the song ROSE OF TRALEE. Still fewer may know that each year around August 30 in County Kerry a young woman is selected as the Rose of Tralee. Still fewer may know that a dry goods dealer, Mr. M.H. Reardon of that very town, circulated a private farthing token dated 1839 when the government provided insufficient small change. A number of his colleagues on the "Old Sod" issued others as did many of their English counterparts. See page 8.
